

Scientific Certification Systems (SCS) in accordance with the rules of the Forest Stewardship Council A.C. (FSC) has granted Architectural Doors, Inc. the FSC Chain of Custody Certification. This means that customers can be sure that specified products sold by Architectural Doors, Inc. are traceable to responsibly managed forests, and that there are documented controls in place to make sure that the integrity of the environment is upheld. By achieving this Architectural Doors has meet the program's rigorous requirements, and Architectural Doors is continuously striving forward to remain at the forefront of the door and hardware industry.

This certification will be appreciated by architects and contractors who specify green building products for environmentally-conscientious building owners. Chain of custody certification provides a guarantee about the production of FSC-certified products and certifies the path taken by raw materials from the forest to the consumer, including all successive stages of processing, transformation, manufacturing and distribution.

FSC projects must be specified prior to the quoting and or ordering of FSC material for proper material & paper work handling, to make sure that all FSC requirements are met.
